**DBHDD Region One Adult
FY12 Contracts
12-15-11**

A. Total contractors-----14

Contractors by Type-

- CSB's-----4
- County Board of Health-----1
- Private In-patient Hospitals---7
- Other Private Providers-----3

B. Total amount of contracts----- \$52,043,564

Amount by Disability-

- Adult Mental Health \$36,966,016
- Adult Addictive Disease \$15,077,548

C. Amount of funding and the estimated number of people served by Service Type-

• Adult Core services	\$ 20,583,193	20,000 people per year
• Adult Crisis Stabilization	\$ 13,473,000	5,200 people per year
• Adult Residential Services	\$ 6,569,045	500 people per year
• Adult Peer Services	\$ 655,566	
• Adult Employment Services	\$ 616,560	
• Other Specialty Services-		
▪ ACT	\$ 2,400,000	300 people per year
▪ Adult In-patient hospitalization	\$ 6,200,000	1,800 people per year
▪ Intensive Case Mgn	\$ 650,000	300 people per year
▪ Case Mgn	\$ 109,000	100 people per year
▪ Community Service Team	\$ 209,000	60 people per year
▪ Mobile Crisis Team	\$ 250,000	1,200 people per year
▪ Suportive Employment	\$ 172,200	35 people per year
▪ Housing Vouchers	\$ 212,000	37 people per year

The above funding does not include any Medicaid earnings that the providers may collect, nor does the number of people served include the Medicaid eligible people. Also, there are an additional 24 providers approved to provide Adult Core services in Region One. These providers may bill Medicaid, but do not receive any state funding.

Service description:

Adult Core Services

The basic out-patient services for people with a serious mental illness or with an addictive disease. It consists of being evaluated by a psychiatrist and a nurse, and the development of a treatment plan. The treatment plan may include a prescription for medication, a schedule of appointments for out-patient counseling, supported employment, and home visits by a community service worker. These services are provided by 4 CSB's, 1 County Board of Health, and by 1 private provider.

Adult Crisis Stabilization Services

Services provided in residential settings to rapidly stabilize the behaviors and symptoms of a person in an acute phase of mental illness, or to provide detoxification services to people high on drugs or alcohol. People are usually discharged in 5 days or less and are referred to a Core Provider for out-patient services. There are 5 CSU's in Region One and they are operated by 3 CSB's. They have a combined capacity of 106 beds and admit an average of 430 people per month.

Adult In-patient Hospitalization Services

These are services for people whose behaviors or symptoms are too acute to be effectively managed in a CSU. These services are provided through contract with 7 private psychiatric hospitals. During the first quarter of this fiscal year, there has been an average of 150 admissions per month with an average daily census of 23 people. People being discharged from these hospitals are referred to a Core Provider for out-patient care.

Adult Residential Services

Services range from intensive treatment in a small residential setting with the goal of the person recovering to the point of moving to independent living; to providing rent supplements to help a person in recovery live as independently as possible. These include 3 group homes operated by 3 CSB's, to supporting people in HUD homes and Personal Care Homes. There are approximately 380 slots available that serve an estimated 500 people per year. These residential services are provided only by the 4 CSB's.

Housing Voucher's

To provide Supported Housing and Bridge Funding to persons with Serious and Persistent Mental Illness in the Settlement Agreement's Target Population. The Supported Housing will assist such individuals in attaining and maintaining safe and affordable housing and support their integration into the community. The program is designed to provide housing supports for approximately 2,000 tenants that are deemed ineligible for any other benefits.

Peer Support Services:

This service provides structured activities within a peer support center that promote socialization, recovery, wellness, self-advocacy, development of natural supports, and maintenance of community living skills. Activities are provided between and among individuals, who have common issues and needs, are consumer motivated, initiated and/or managed, and assist individuals in living as independently as possible.

Supported Employment:

In line with current best practice, this service emphasizes that a rapid job search and placement approach be prioritized above traditional prevocational training or traditional vocational rehabilitation. Job development, placement and training are for people who, due to the severity of their disabilities, need support to locate, choose, obtain, learn and maintain a job. Services include supports to choose and obtain paid employment in competitive wage, individual-based community jobs, as well as brief training support to learn the specific job skills/tasks necessary to perform and retain a particular job.

Assertive Community Treatment (ACT)

has all of the service types of a Core Provider except the building, and it has smaller case loads in order to provide more intense services in the person's community. Region One has three teams provided by 1 private contractor. The teams are based in Rome, Gainesville, and Marietta and operate within a 50 mile radius of each town. Each team can have a caseload of 100 people consisting of people with a serious mental illness and who are most at risk of re-hospitalization, or of being homeless or jailed are eligible for this service.

Intensive Case Management(ICM), Case Management(CM), and Community Service Teams(CST) are other forms of community based care that goes to the person in their home or other places in the community to support their efforts to recovery. Caseloads are usually no more than 30 people per staff member. These services are an adjunct to the Core Services the person is receiving and are designed to help the person be successful in their community. ICM is provided by 1 CSB, CM is provided by a different CSB, as is CST.

Mobile Crisis Team (MCT)

A service that has staff on call 24/7 to respond to any crisis call that may be related to a mental illness or substance abuse issue. They conduct a face to face evaluation where ever the person is located and will make recommendations for further treatment if indicated. This service is available in 20 of the 31 counties of region One. It is provided by 1 private provider. It conducts an average of 100 evaluations per month.
